We would all love to own this one, a new Waco biplane. This plane was at the VAA chapter 3 fly-in in Camden this year. I got the opportunity to help out with the events this year and I truly had a great day at the event. The weather started out overcast but cleared and we had about 75 airplanes on the field by lunch.

President's Message

This past Saturday was a nice day for being out and enjoying what we do, "fly YE's". We had plenty of Sunshine and some wind to help us practice our crosswind skills. I had some fun and so did everyone else. I want to take the time to thank Jeanne for all her hard work getting things set up and to all the volunteers who helped make the day possible at Butter's Field - Lee County Airport.

I'm not sure of the actual numbers but Jeanne will let us know in her article. I wish we would have had more to come out, but maybe next year will be better. Jeanne said that Ray is doing better. Be thinking of some things that the Chapter can do as a group and some places to go for a fly-out this coming Christmas. David Dunsmore will be presenting the program this coming Tuesday the 30th. The meeting will be a little different this time. We are starting at 6:30 pm with the program first and after everyone is there, we are getting a count and then ordering pizza, then after the program we are going to eat. Please come out and join the fun.

Note: This is an eating meeting!!! Time: starts 6:30 pm.

Letter From The Editor

Jordie & I flew over to Owens Downtown in Columbia on the 13th for a visit to our neighbors at EAA 242. They have a pretty good group of folks over there and I had a truly enjoyable day with them. It's always exciting to get with other pilots who love aviation and have so many stories to tell. I offer an invitation to anyone, pilot or otherwise, to contact me and I will take him or her flying with me. Most of the trips I have had the privilege to take lately, I have gone with empty seats and room left before I reach my weight & balance limits. (Usually in the Cherokee 6 and we all know it's a truck.)

I truly love flying and as I write this, I am leaving later today on an Angel Flight as copilot to Raleigh, then to Florida to drop off a 6 month old for surgery, then return to Raleigh, and back to Florence tonight. I urge all pilots to consider the Angel Flight/Mercy Flight network see what an awesome feeling it is to help out someone in need.

Young Eagles

The weather was great! Our staff (pilots and ground crew) was in place! But alas, we did not get the numbers of Young Eagle candidates that I had hoped for!!! I guess there was just too much competition downtown to keep kids from flying!! And for those of you who don't have a clue: I'm referring to the Lee County Cotton Festival held in Bishopville on October 20th.

We did fly 23 Young Eagles and paperwork has been submitted to Oshkosh. And there was time for "catching up" among those present. We do thank George and Ray (Lee County) for lunch and for Dan and Ray from the new Sumter Chapter who provided ATC support for the flights.

As a result of a "need help" email from Chapter 242, Ben and Jordie flew over to Owens on the 13th to help out with Young Eagle flights. Thanks to both of them for their participation.

There are still two months to go in the year! I'd love to see us fly 200 this year!!! Can you help me find 20 more?????

Jeanne Rudick
Young Eagles Coordinator, EAA 1058
