---

I have kept the same cover photo for this month's newsletter for a reason. Everyone has to check out this website, they have recreated in the simulator the landing on the Hudson River. Type this link into your web browser and watch the video. I challenge anyone to remain as calm as these guys did with what they had going on.

## President's Message

I hope everyone is doing fine. I have enjoyed a couple days of flying weather, I hope some of ya'll have had the chance. Well, the end of the year is just around the corner, it sure moves fast. I'm still working on a speaker for the Banquet in January. More information on that later on in another newsletter.

I hope to see all of you next Tuesday at the meeting. Lee Gardner will be handling the presentation. He will be giving us an in-depth update on future Hartsville Airport improvements. I'm sure we will enjoy what the future holds for the airport where so many of us learned the fun of flight. Remember, we don't have a meeting in December, but we do have a fly-out planned for Alabama Theatre. There will be more on this later too!! I may not be able to attend that function due to my mother's health, but I would be there in spirit.

Keep an eye on EAA because they are doing and trying new things, and AOPA is updating a few of the on line courses. I have been taking some when time allows. Both of the organizations do many wonderful things and we need to take full advantage of them as members.

I think Jeanne is working on a Young Eagle event first of December in Bishopville. Stay tuned and be ready to volunteer if she calls. I can't remember what Saturday, (sorry Jeanne) but I'm ready to help fly some kids, I hope that you are willing to help out in whatever capacity you can.

If anyone would like to handle a program for next year, please let me know so that I can get you on the schedule, or if you have an idea, let anyone on the board know. Thanks and I pray that each of you have a pleasant Thanksgiving. See ya'll at the meeting 7:00 pm sharp.

*Jesse Allred*  
President, EAA 1058

## Vice President's Message

I have not been posting a lot of messages in the newsletter lately. My job has me running way too much and I forget to enjoy life while I can. The other day, I had the chance to go fly with a friend of mine and just have fun in the airplane. It has been way too long since I did that, and I have to recommend it to everyone. If you have not flown in a while, find an instructor or just a friend, and go fly somewhere just for the fun of it. Try a few touch-and-gos and practice those short-field and soft-field landings. Work on spot landings and keep your skills up.

*Ben Brotherton*  
Vice President, EAA 1058
